You are invited to give comment or express your concerns related to the Proposed New Fire Sub-Station and Community Room. The Town of LaSalle is in the process of implementing the recommendations of the Fire Master Plan, and has approved the construction of a second, satellite fire station to be located in the western urban area of the municipality. A site selection process based on relevant criteria has determined that the recommended location for this community fire station is on Hazel St. adjacent to John Dupuis Park, on the site formerly occupied by Col. Bishop School and community center. The current recommendation also includes a community room, providing an additional amenity to user groups in the area.

Please complete and leave this form today (or later by e-mail, mail or fax) so that your opinions and concerns on this project can be considered. Comments will be received until Friday, June 9th, 2017. All comments are to be directed to:
