Town of LaSalle - Transportation Master Plan

PUBLIC INFORMATION CENTRE #2

The Town of LaSalle is in the process of updating the “LaSalle Age-Friendly Active Transportation Plan” as part of a comprehensive Transportation Master Plan. The Town has partnered with WSP to assist in developing a plan that will encompass all modes of transportation, including active transportation (such as walking and cycling), transit and automobile travel. The 2019 Transportation Master Plan will be used as a guiding document for enhancing and facilitating a comprehensive multi-modal transportation network in the Town of LaSalle. Particular focus will be placed on the development of an age-friendly active transportation plan.

On June 19, 2018, the first Public Information Centre (PIC) was hosted to collect feedback from stakeholders and residents on transportation challenges and opportunities. Since then, the study team has reviewed public feedback and identified preliminary transportation improvements to the year 2031. We would like to invite you to attend and participate in an upcoming second Public Information Centre (PIC) where we will present draft future walking, cycling, transit and road networks along with the main recommendations of the plan to gain your feedback and ideas to refine them. Details for the event are provided below:

Date: Thursday, March 7, 2019

Time: 4 to 7 p.m. = come anytime it is convenient for you

Location: The Vollmer Centre, in the Multi-Purpose Room
2121 Laurier Parkway

If you have any questions about the Transportation Master Plan or would like to discuss the details of the project or the Public Information Centre with a study representative, please contact the below:

Larry Silani, MCIP, RPP

Director of Development and
Strategic Initiatives
Town of LaSalle
