GROW GREEN WITH THE GREEN BIN!

Food Waste Is Too Good To Waste

Weekly residential curbside collection of food waste and organics begins in October. This new program will keep food waste out of the garbage stream, helping to grow a greener Region. The yard waste collection program will still be used for leaves and yard waste.

Green Bin It!

Putting food waste and organics in the Green Bin instead of the garbage helps the environment, extends the life of the Essex-Windsor Regional Landfill, and promotes a circular economy. This valuable resource in turn creates energy and fertilizes crops. It's the next step towards creating a greener Region.

WHAT GOES IN THE BIN?

Scan the QR code for the acceptable materials list.

Bins Are Arriving Soon

Delivery of EWSWA Green Bins to single-family households in Phase 1 will begin in July. Let's all do our part to grow greener in 2025 - and beyond!

Download the Recycle Coach app for your Green Bin delivery date and collection schedule.

JOIN THE GREEN TEAM

Become a Green Superhero! Help make the Region greener by putting your food waste and organics in the Green Bin, not your garbage. It's a lot easier than you might think - it's just a different bin, and ultimately it's the right thing to do.

Scan the QR code to see what can go in Green Bin - and what can't - and to learn more about the Green Bin program.

DON'T FREEZE THIS WINTER

Keep It Green with the Green Bin Program

Winter's cold weather can present unique challenges. Here are some useful cold weather tips to help you "stay green" all year.

1. Line the bottom of your Green Bin with a layer of cardboard, newspaper, or a paper egg carton to prevent contents from freezing to the Bin.
2. Drain liquids before you put food waste and other organics into your Bin.
3. Where possible, try to set out your Bin the morning of collection (by 6 AM) to avoid material freezing to the Bin.

Check out the winter tips!

Download the Recycle Coach app for Green Bin program updates.

STAY GREEN THIS WINTER WITH THE GREEN TEAM

Be a Green Superhero all year-round! Help make the Region greener by using the Green Bin instead of your garbage for food waste and organics. It's a lot easier than you might think - even in the winter. It's just a different bin!

Winter Roads Maintenance

During the winter months, main roads are cleared and salted first, followed by residential and secondary roads. Be sure to maintain a safe distance from snowplows and avoid pushing driveway snow back onto the road.

During winter snowfall, property owners are encouraged to:

- Park vehicles in driveways, not on the road.
- Maintain clear catch basins for proper drainage.
- Keep fire hydrants visible and snow-free.
- Clear sidewalks adjoining your property.
- Place garbage and recycle bins in the driveway approach, not on snow banks or the road.

Residents should wait to clear their driveway approaches until the plows have cleared the curb lanes.

Natural Christmas Tree Drop-Off

LaSalle residents are reminded that natural Christmas trees will not be collected with regular garbage. Drop off natural Christmas trees to the designated areas at:

- River Canard Park (Malden Rd.)
- LaSalle Landing (Front Rd.)
- Optimist Park (Victory St.)
- Heritage Park (Heritage Dr.)
- Vince Marcotte Park (LaSalle St. and Normandy Rd.)
- Public Works Building (Judy Recker Cres.)

Trees will be picked up from these locations into February. These trees are chipped into mulch for town projects, and are also used on Fighting Island for natural regeneration.
